

9-10 TONS

# **KONECRANES LIFTACE EMPTY CONTAINER HANDLER**

# DURABLE COMPANION FOR HANDLING EMPTY CONTAINERS

**Konecranes Liftace empty container handler enables high handling rates while being operated at competitively low costs. The powerful, durable and safe machine has become a firmly established player for container terminals due to its good quality and ease of use. It stacks up to 8 containers high; 9 tons single and 10 tons double handling.**

## Field-proven quality

Konecranes Liftace empty container handler is a robust workhorse designed to meet the terminal container handling requirements. Built on industry knowledge, engineering tradition and expertise the Konecranes Liftace empty container handler is a combination of durability and quality. The spreader has been used by our customers for many years in terminals around the world. Due to high quality and simple utilization the Liftace empty container handler is perfect for rental fleet.

## Smart technology for more efficient and accurate operations

Konecranes Liftace empty container handler modern control systems and drive technology. Intelligent Electronic Machine Control (EMC), such as automatic engine shut down and speed limit, improve cost-efficiency and safety.

## Latest load sensing technology brings cost savings

A smart load-sensing hydraulic system allocates the lift truck's power where needed, when needed. You can save up to 10% of fuel consumption. The load sensing technology means also reduced engine and drive train wear. This makes Konecranes Liftace empty container handler a cost-efficient lift truck with long lifecycle.

## Reliable and safe choice for efficient operations

### Enhanced visibility and operator ergonomics

Konecranes Liftace empty container handler has various features to enhance operator's everyday working conditions. A modern OPTIMA cabin makes operating the Liftace empty container handler safer and more efficient. A panorama roof window and large, lowered windows with no corner posts lead to superior visibility. OPTIMA cabin enables also a more spacious cabin and more space for operating the foot pedals. 7" touch screen provides full truck monitoring and low noise level of the truck improves driver ergonomics. Load sensing technology enables very precise and smooth feel on the lifting levers or joystick at every point of a handling operation.

### Fast delivery and global service network

Thanks to a high degree of standardization, the Konecranes Liftace empty container handler can be delivered to you in a short period of time. The machine is also simple to maintain.

### BENEFITS OF KONECRANES LIFTACE EMPTY CONTAINER HANDLER

- Durable design to meet terminal container handling requirements
- Cost effective with long lifecycle
- Simple operation and maintenance
- Increased driver safety due to excellent visibility

Konecranes is a world-leading group of Lifting Businesses™, serving a broad range of customers, including manufacturing and process industries, shipyards, ports and terminals. Konecranes provides productivity enhancing lifting solutions as well as services for lifting equipment of all makes. In 2016, Group (comparable combined company) sales totaled EUR 3,278 million. The Group has 16,800 employees at 600 locations in 50 countries. Konecranes class A shares are listed on the Nasdaq Helsinki (symbol: KCR).
